Vulcanizing material, equipment and accessories

THERMOPRESS JUNIOR

THERMOPRESS JUNIOR

Not only for tread repairs

Repair plugs are designed only for cold repairs to the tread. However, the **TP Junior** also makes it possible to expertly repair shoulder and sidewall injuries, and to cure fabric reinforced patches.

Uncured rubber is transformed into elastic vulcanized tyre rubber at a curing temperature of 145 °C. This is the traditional and well-proven technology of the vulcanizing trade.

517 38 15

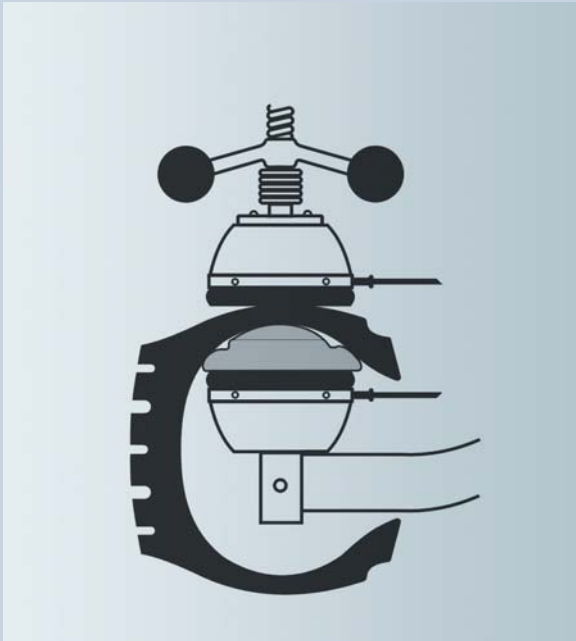

517 38 91

BENEFITS

- Designed for sidewall, shoulder and tread repair
- Maximum repairable injury size: 12 mm (up to index T)
- **Short curing times** (30 – 50 mins.)
- Automatic switching off with timer (120 mins.)
- **Space-saving installation on workbench** or on separate support stand
- Easy-to-handle mechanism

Sidewall, shoulder and tread repair

517 11 61

517 38 53

OPTIONAL ACCESSORIES:

- 517 38 84 Table support clamp
- 517 38 91 Support stand, for floor-mounting
- 517 38 53 Pressure equalizing pad (110 x 110 mm)
- 517 11 61 Valve heating plate for hot-curing rubber-base valves

THERMOPRESS JUNIOR

Technical data

Mains power supply	230 V
Nominal power input	600 W
Operating temperature	approx. 145 °C (293 °F) (with integrated safety cutout)
Max. pressure	approx. 6000 N
Max. pressing surface	94 cm ²
Curing time control	timer 0–120 mins.
Machine weight	approx 6,3 kg
Size (L x W x H)	approx. 555 x 320 x 100 mm

We reserve the right to carry out modifications which we consider to be technically advantageous!

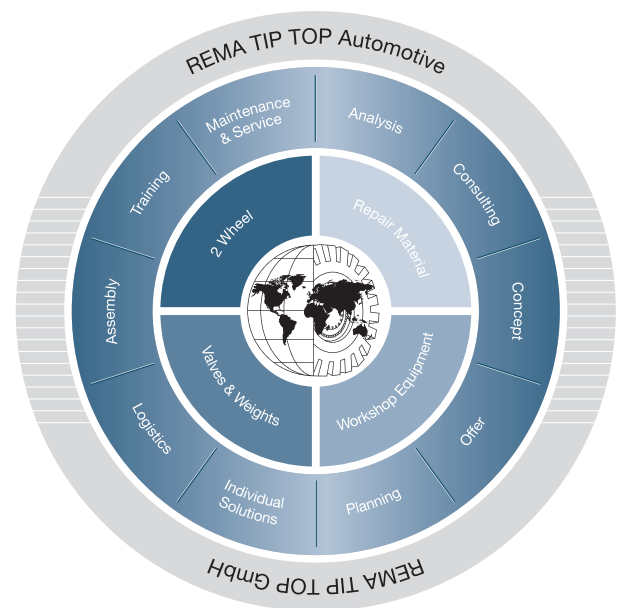

Ref. No. Description/type

517 38 15 TP Junior (230 V)

The pictures shown in the brochure may differ from the delivered equipment and include optional accessories. For detailed information on optional accessories, please request the respective brochure or visit us at www.rema-tiptop.com.

We manage your workshop. Quality with a system.

REMA TIP TOP is synonymous for first-class products, systems and services from a single source. We convince our customers by our progressive technology, ground-breaking innovations and a world-wide service network.
