

Wheel washer

# TURBO WASH 4000

Automotive

## Automatic wheel washing with **TURBO WASH 4000**

Just put the wheels in trolley – dock it on the Turbo Wash – that's it!

### Overview of functions

## Environmental awareness for preservation of the future!

**The environmentally friendly way to wash wheels. Gentle to the rims.**

The risk of tyre damage is minimized, as the machine works with water pressure of approx. 3 bar together with plastic granules. It does not use any high-pressure jet cleaning system (with fine water jets penetrating into the rubber at a pressure of up to 160 bar, thus destroying its structure).

The simple and ergonomic design meets the user's needs. No special installation requirements must be met, as the Turbo Wash 4000 does not need permanent water supply and drain pipes. The standard shipment includes a basic quantity of granules.

## A new dimension

for your tyre service

### New water purification system:

A new water recycling system (closed water circuit) as standard equipment binds heavy metals which are filtered out while cleaning the water. A traditional oil separator is not sufficient.

### Heating system:

The washing results can be improved using the heating system, which forms part of the machine's standard equipment.

## BENEFITS

- Automatic wheel washing process – continuous feeding of the machine (ideal before storage of wheels)
- No manual loading/unloading needed
- Reduced labour costs – no idle time of your staff
- Suits a large spectrum of wheel sizes
- New water purification system:
  - Closed water circuit
  - Environmentally friendly washing method
- Well proven, careful cleaning method for all kind of rims
- More precise balance results
- Standard heating system
- Standard water purification

## That's the way!

Optimized workflow

## TOP accessory:

**Turbo Wash 4000 wheel trolley**

Up to four trolleys (retrofitting options) can be docked onto the machine individually and permanently.

## Standard shipment

- 2 wheel trolleys for TURBO WASH 4000
- Basic quantity of granules

## Optional accessories:

- 518 95 10 Wheel trolley for Turbowash 4000
- 518 46 39 Granules for Turbowash 4000
- 518 53 53 Granules "ECO"
- 593 25 20 Wheel washing detergent Turbo Wash Super (environmentally friendly and gentle to the rims)

# TURBO WASH 4000

## Technical data

Wheel width	135 - 350 mm
Wheel-dia.	540 - 800 mm
Wheel weight	max. 45 kg
Operating pressure	8 - 16 bar
Washing cycle	30 / 60 / 90 / 120 sec
Water volume	300 l
Power supply	380 - 420 V, 3 phases V/W
Dimensions (L x W x H)	1020 x 1570 x 1550 mm
Granules quantity	25 kg
Height (lid opened)	2360 mm
Weight	350 + 56 kg per wheel trolley
Sound level	79 dB (A) measured at a distance of 1 m

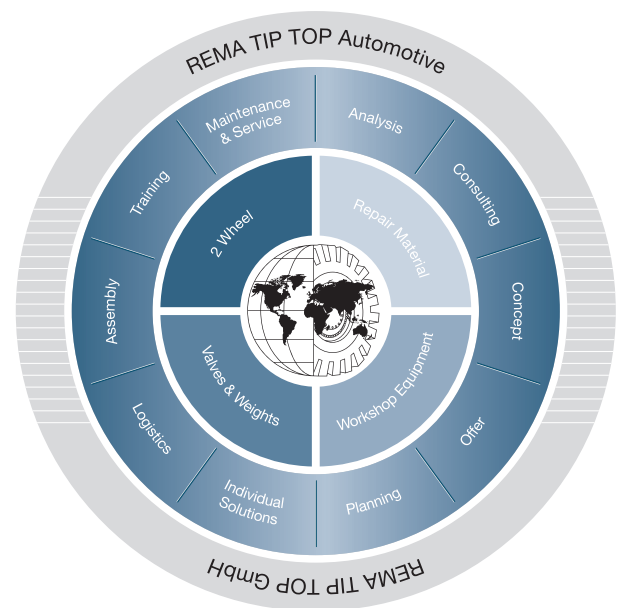

Ref. No.	Designation/type
518 95 00	TURBO WASH 4000

The pictures shown in the brochure may differ from the delivered equipment and include optional accessories. For detailed information on optional accessories, please request the respective brochure or visit us at [www.rema-tiptop.com](http://www.rema-tiptop.com).

## We manage your workshop

One brand – One source – One system

REMA TIP TOP is synonymous for first-class products, systems and services from a single source. We convince our customers by our progressive technology, landmark innovations and a world-wide service network.
